

CAPACITORS

We carry a wide variety of capacitors for the repairmen and hobbyists. Shipping in the US is free when ordering tubes. Note that when replacing old capacitors, you always want to use the same voltage rating or higher. [pF to μ F conversion – 1000pF = 0.001 μ F]

Books and Tube Information

We sell books related to tubes, tube testers, radio, and audio. Our inventories of original old-stock books and reprints constantly changes, and we list those available on our website. We are proud to stock:

	<p>“The Complete Western Electric Vacuum Tube Library”. Our newest original book with over 4000 pages of technical data, pictures, and more. Includes rare data on pre-1930 types as well as pictures of many obscure D-Spec types. Great for collectors, historians, and audiophiles. Due to the</p>		<p>“JEDEC Tube Data”. In collaboration with the Tube Collectors Association, we created this two DVD set containing all of the US tube and semiconductor registration data from 1934 to 1990. Ludwell</p>
<p>sheer size of the archive, this is available on DVD only. Cost is \$59.99 postpaid in the USA. Add \$3.00 for Priority Mail</p>	<p>Sibley (author of Tube Lore, see below) called this “God’s own tube manual”. Has detailed data for over 10000 tubes and 20000 semiconductors. Bonus material includes scans of RCA’s Product Management binders. Cost is \$50.00 post paid in the USA. Add \$3.00 for Priority Mail. \$25 of each sale goes to the Tube Collectors Association.</p>		
	<p>“The Complete Jackson Model 648 Tube Tester Manual”. This is our original book, not a reproduction. In 100 comprehensive pages it has complete instructions, 50 pages of setup data, schematics for every version, calibration and diagnostic information, plus a history of the model 648 with</p>		<p>Tube Lore by Ludwell Sibley. I am often asked if there are any good tube reference books available. This is a "must-have" for anyone interested in tubes for any reason. This manual is THE quick desktop reference for all different kinds of tube questions. It is \$20.00 post paid in the USA. Add \$3.00 for</p>
<p>pictures and descriptions of the different versions. This manual is ring bound to lay flat. It is \$25.00 post paid in the USA. Add \$3.00 for Priority Mail</p>	<p>Priority Mail.</p>
